

Rome is Burning, by Mistahi Corkill

Verse 1

The story goes you're gonna make it if you try,
And if you don't may your life waste away 'cause its your fault

Pre-Chorus 1

Like the sheen of a rotting fish, The glitter just dazzles,
For everyone who's filthy rich, A million must suffer,
So start your climb up the money tree, The best slaves are those who think they're free,

Chorus

Oh say can you see Rome is Burning, Oh how it burns, Oh feel the burn,

Verse 2

As life unfolds the people struggle to make ends meet,
Look around, what you see, the hunger, the homeless, the powerless streets

Pre-Chorus 2

On your mind the need for change, channel your pain and your rage,
Stand up and link your arms for strength, Shout it out to the police state,
I can't breathe that's why I take a knee, We won't take your new form o'slavery,

Chorus

Verse 3

Make no mistake, racism starts with the state,
To divide and rule the working class to keep us broken, not building the new

Pre-Chorus 3

Lessons of history revealed, Organize or be displaced,
The rulers have no solutions, Only violence, wars and jails,
Stick together and fight for your just claims, Workers united will prevail,

Chorus

Oh say can you see Rome is over, Oh build the new, Oh build the New!
